

# LabAsia

Malaysia 3rd Laboratory and Analytical Equipment, Instrumentation and Services Exhibition and Conference **2011**

SHOW  
UPDATE

# MARK YOUR DATES NOW

To be at LabAsia on **27-29 September 2011** in **Putra World Trade Centre, Kuala Lumpur**

- Floor Space over 55% Sold
- 2 Mega Conferences held concurrently
- 4 International Pavilions - China, Germany, India and Singapore

**For Scientists, Researchers, Lab Managers and Scientific Instrument Users:**  
A well planned visit will give you the opportunity to gain ideas and information to help you perform better

### Reduce Cost & Save Time

- Explore and survey the latest technology in the market
- Listen, view and feel the equipments through first hand demonstration of products
- Save time by making appointments and meet the equipment providers in LabAsia 2011 all under one roof

### Informative Technical Seminar

- International professional Speakers invited to speak on their latest findings
- Interesting topics to cater for niche researchers
- Q & A session for attendees to voice out their concerns
- Online Pre-registration to reserve a space
- Attractive Prizes available for Lucky draw \*

*\*Only valid for attendees*

**For Laboratory and Analytical Equipment and Instrumentation manufacturers, traders and suppliers**

### 1 on 1 Business Matching for Oversea Pavilions

- Arranged appointments with local potential agents and dealers by the Organiser

### Speedy Market Access

- Be in touch with the officers and private sectors decision makers in 3 days rather than what you might otherwise achieve in months

### Focused Visitors

- Targeted decision makers of the scientific industry are specially invited to attend LabAsia 2011

Organised by:

# Conferences in Conjunction with LabAsia 2011

## CHEMRAWN 2011

IUPAC International conference on Chemical Research Applied to World Needs (CHEMRAWN) 2011  
Renewable and Sustainable Energy from Biological Resources

Joint Organisers: Institut Kimia Malaysia (IKM) and International Union of Pure and Applied Chemistry (IUPAC)

### Introduction

CHEMRAWN 2011 will focus on chemical research, technology and innovation in renewable and sustainable energy that can be harvested from biological resources including carbohydrates, starchy and cellulosic materials, oil crops/oils, biomass, municipal waste, biological effluent and sewerage, and others. The issues of food versus feed versus carbon footprint will also be discussed.

## ExTech 2011

13th International Symposium on Advances in Extraction Technologies 2011  
Joint Organisers: Institut Kimia Malaysia (IKM) and National University of Singapore (NUS)

### Introduction

The Symposium is the premier event for sample preparation, and provides the perfect opportunity for all researchers and practitioners to present, discuss and exchange ideas in all areas of sample preparation and extraction. The focus in each symposium is on the fundamentals, development of novel approaches and new technologies of extraction and sample preparation in various fields of analytical sciences. These fields include eco- and enviroanalytics and forensics, bioanalytics, nanoanalysis, natural products chemistry, and food and flavor chemistry.
